1 INTRODUCTION

The MSCI USA Catholic Values Index is a free float-adjusted market capitalization index designed to be used as a U.S. equity benchmark for Catholic investors who seek equity ownership in alignment with the moral and social teachings of the Catholic Church. The MSCI USA Catholic Values Index consists of 400 companies selected from the MSCI USA Investable Market Index (IMI).

2 MSCI ESG RESEARCH FRAMEWORK

The MSCI USA Catholic Values Index uses company ratings and research provided by MSCI ESG Research Inc. In particular, this index uses the following three MSCI ESG Research products: MSCI ESG Ratings, MSCI ESG Controversies, and MSCI ESG Business Involvement Screening Research.

For details on MSCI ESG Research's full suite of ESG products, please refer to:
http://www.msci.com/products/esg/about_msci_esg_research.html

2.1 MSCI ESG RATINGS

MSCI ESG Ratings provides research, analysis and ratings of how well companies manage environmental, social and governance risks and opportunities.

MSCI ESG Ratings provides an overall company ESG rating - a seven point scale from 'AAA' to 'CCC'. In addition, the product provides scores and percentiles indicating how well a company manages each key issue relative to industry peers.

For more details on MSCI ESG Ratings, please refer to
https://www.msci.com/documents/1296102/1636401/MSCI_ESG_Ratings.pdf

2.2 MSCI ESG CONTROVERSIES

MSCI ESG Controversies (earlier known as MSCI Impact Monitor) provides assessments of controversies concerning the negative environmental, social, and/or governance impact of company operations, products and services. The evaluation framework used in MSCI ESG Controversies is designed to be consistent with international norms represented by the UN Declaration of Human Rights, the ILO Declaration on Fundamental Principles and Rights at Work, and the UN Global Compact. MSCI ESG Controversies Score falls on a 0-10 scale, with "0" being the most severe controversy.

For more details on MSCI ESG Controversies Score, please refer to
<https://www.msci.com/documents/10199/acbe7c8a-a4e4-49de-9cf8-5e957245b86b>

2.3 MSCI ESG BUSINESS INVOLVEMENT SCREENING RESEARCH

MSCI ESG Business Involvement Screening Research (BISR) aims to enable institutional investors to manage environmental, social and governance (ESG) standards and restrictions reliably and efficiently.

For more details on MSCI ESG Business Involvement Screening Research, please refer to
http://www.msci.com/resources/factsheets/MSCI_ESG_BISR.pdf

3 CONSTRUCTING THE MSCI USA CATHOLIC VALUES INDEX

3.1 SELECTION UNIVERSE

The selection universe for the MSCI USA Catholic Values Index is the MSCI USA IMI.

3.2 ELIGIBILITY CRITERIA

The MSCI USA Catholic Values Index uses company ratings and research provided by MSCI ESG Research to determine eligibility.

3.2.1 VALUES-BASED EXCLUSIONS

The MSCI USA Catholic Values Index uses MSCI ESG Business Involvement Screening Research to identify companies that are involved in the following business activities. Companies that meet the business involvement criteria are excluded from the MSCI USA Catholic Values Index. Please refer to Appendix 1 for details on these criteria.

- Alcohol
- Gambling
- Tobacco
- Military Weapons
- Civilian Firearms
- Nuclear Power
- Adult Entertainment
- Genetically Modified Organisms

3.2.2 CATHOLIC VALUE SCREENS

The MSCI USA Catholic Values Index also excludes companies that are not in accordance with the United States Conference of Catholic Bishops' (USCCB) Socially Responsible Investment Guidelines. Each company's Catholic Values performance is evaluated based on following areas:

- Abortion
- Abortifacients
- Adult Entertainment

- Contraceptives
- Stem Cells

Please refer to Appendix 2 for a detailed description of these criteria.

3.2.3 MSCI ESG RATINGS ELIGIBILITY

The MSCI USA Catholic Values Index uses MSCI ESG Ratings to identify companies that demonstrated an ability to manage their ESG risks and opportunities. Existing constituents of the MSCI USA Catholic Values Index are required to have an ESG rating above B to remain in the index, while companies that are currently not constituents of the MSCI USA Catholic Values Index are required to have an ESG rating above BB to be considered eligible for addition.

3.2.4 MSCI ESG CONTROVERSIES SCORE ELIGIBILITY

The MSCI USA Catholic Values Index uses MSCI ESG Controversies Score research to identify those companies that are involved in very serious controversies involving the environmental, social, or governance impact of their operations and/or products and services. Existing constituents of the MSCI USA Catholic Values Index are required to have an MSCI ESG Controversies Score above 0 to remain in the index, while companies that are currently not constituents of the MSCI USA Catholic Values Index are required to have an MSCI ESG Controversies Score above 2 to be considered eligible for addition.

3.3 SECTOR REPRESENTATION

The MSCI USA Catholic Values Index is designed to maintain sector weights approximately similar to the MSCI USA Index by targeting relative sector weights of +/- 25% with respect to MSCI USA Index.

Relative weight of a sector is computed as

$$\frac{\text{weight of the sector in MSCI USA Catholic Values Index} - \text{weight of sector in MSCI USA Index}}{\text{weight of sector in MSCI USA Index}}$$

Sectors having relative sector weight greater than upper threshold (+25%) with respect to MSCI USA Index are considered to be overweight and sectors having relative sector weight less than lower threshold (-25%) with respect to MSCI USA Index are considered to be underweight.

3.4 SIZE-SEGMENT REPRESENTATION

The MSCI USA Catholic Values Index targets a minimum count of 200 standard size-segment (Large Cap and Mid Cap) companies.

4 MAINTAINING THE MSCI USA CATHOLIC VALUES INDEX

4.1 QUARTERLY INDEX REVIEWS

The composition of the MSCI USA Catholic Values Index is reviewed on a quarterly basis to coincide with the regular Index Reviews (Semi-Annual Index Reviews in May and November and Quarterly Index Reviews in February and August) of the MSCI Global Investable Market Indexes. The changes are implemented at the end of February, May, August and November. The pro forma indexes are in general announced nine business days before the effective date.

At every Quarterly Index Review, the deletions and additions are made to the MSCI USA Catholic Values Index as per below.

4.1.1 DELETION CRITERIA

At Quarterly Index Reviews, existing constituents are deleted from the MSCI USA Catholic Values Index for one or more of the following reasons:

- If a company is deleted from the MSCI USA IMI as a result of the Index Review, it is simultaneously removed from the MSCI USA Catholic Values Index
- Any company that fails the eligibility criteria outlined in Section 3 is deleted from the Index.

4.1.2 ELIGIBILITY FOR ADDITION

At every Quarterly Index Review, after reflecting all the deletions, additions are made to the MSCI USA Catholic Values Index in order to restore the number of index constituents to 400 companies. All eligible securities of each issuer are included in the index, so the index may have more than 400 securities.

All companies of the pro forma Parent Index that pass the eligibility criteria outlined in Section 3 are eligible for inclusion in the index.

4.1.3 INDEX ADDITIONS

Additions are made to the MSCI USA Catholic Values Index from the list of eligible additions based on considerations of ESG performance, sector alignment and size representation. In order to restore the number of companies in the MSCI USA Catholic Values Index to 400, additions will be first made to the standard size segment. Based on the addition rules below, once there are no further additions available to the standard size segment, additions will be made to the small cap segment.

Standard segment:

- All companies having an ESG Rating of AAA are added
- Companies are added (in order of their industry adjusted ESG scores) to sectors where the relative sector weights are below the lower threshold (-25%).
- Once the relative weights of all sectors are above the lower threshold or no further companies are available for addition in these sectors, companies are added sequentially based on their ESG Scores.
- Companies are not added to sectors where the relative sector weight reaches the upper threshold of +25%.
- A minimum of 200 standard segment companies are maintained to ensure appropriate size representation.
- While adding companies to the same sector, preference is given to companies having the higher ESG Score. In case there are multiple companies with the same ESG score, the one with the highest free float-adjusted market capitalization will be added first.

Small Cap segment:

- Companies are added purely based on their ESG scores. In case of a tie, companies are added to the most underweight sector.

4.2 ONGOING EVENT-RELATED MAINTENANCE

The MSCI Corporate Events Methodology is applied for the maintenance of the MSCI USA Catholic Values Index between Index Reviews. New additions to the MSCI USA IMI due to corporate events will not be added simultaneously to the MSCI USA Catholic Values Index, but will be considered for inclusion at the following Index Review. However, companies deleted from the MSCI USA IMI between Index Reviews are deleted at the same time from the MSCI USA Catholic Values Index.

If the number of companies in the MSCI USA Catholic Values Index falls below 400 due to corporate events, no additions will be made to restore the number of companies to 400 until the next Quarterly Index Review.

The technical details relating to the handling of specific corporate event types can be found in the MSCI Corporate Events Methodology book available on MSCI's web site at:

<http://www.msci.com/products/indexes/size/standard/methodology.html>

APPENDIX 1: VALUES BASED EXCLUSION CRITERIA

The MSCI USA Catholic Values Index excludes companies that meet the following values based criteria:

- **Alcohol**
 - All companies classified as a “Producer” that earn either 5% or more revenue or more than \$500 million in revenue from alcohol-related products.
- **Gambling**
 - All companies classified as involved in “Operations” and “Support” that earn 5% or more in revenue, or more than \$500 million in revenue, from gambling-related products
- **Tobacco**
 - All companies classified as “Producer”
 - All companies classified as “Distributor”, “Retailer”, and “Supplier” that earn 15% or more in revenue from tobacco-related products
- **Military Weapons**
 - All companies classified as involved in manufacturing of “Nuclear Weapons”, or “Nuclear Weapons Components”
 - All companies classified as involved in manufacturing of “Chemical and Biological Weapons” or “Chemical and Biological Weapons Components”
 - All companies classified as a “Cluster Bomb Manufacturer”
 - All companies classified as a “Landmine Manufacturer”
 - All companies classified as a “Manufacturer of Depleted Uranium Weapons”
 - All companies that earn 5% or more revenues or more than \$500 million in revenue from manufacturing of Conventional Weapons and Conventional Weapons Components, and Weapons Support Systems and Services
- **Civilian Firearms**
 - All companies classified as “Producer”
 - All companies classified as a “Retailer” that earn 5% or more in revenue, or more than \$20 million in revenue, from civilian firearms-related products

- **Nuclear Power**
 - All companies classified as a nuclear “Utility”
 - All companies involved in Uranium Mining
 - All companies involved in designing nuclear reactors
 - All companies involved in enrichment of fuel for nuclear reactors
 - All companies classified as a “Supplier” to the nuclear power industry that earn 15% or more in revenue from nuclear-power related products
 - All companies with 6000 MW or more of installed capacity attributed to nuclear sources or with 50% or more of installed capacity attributed to nuclear sources
- **Genetically Modified Organisms (GMO)**
 - All companies that derive any revenue from activities like genetically modifying plants, such as seeds and crops, and other organisms intended for agricultural use or human consumption
 - Companies that are only involved in GMO Research & Development activities are not excluded

APPENDIX 2: CATHOLIC VALUE SCREENS

The MSCI USA Catholic Values Index excludes companies that do not meet the United States Conference of Catholic Bishops' (USCCB) Socially Responsible Investment Guidelines. Each Company's Catholic Values performance is evaluated covering the following areas:

- **Abortion**
 - All companies classified as "Abortion Provider" or "Own or Operate Acute Care Facilities"
- **Abortifacients**
 - All companies classified as "Producer"
- **Adult Entertainment**
 - All companies classified as "Producer"
 - All companies classified as "Distributor" or "Retailer" that earn 15% or more of revenues from adult entertainment products
- **Contraceptives**
 - All companies classified as "Producer"
- **Stem Cells**
 - All companies classified as "Embryonic Stem Cell Research", "Fetal Tissue Research", "Use of Fetal Cell Line", or "Enabling Technology"

APPENDIX 3: METHODOLOGY TRANSITION

Effective at the May 2016 Index Review, the MSCI USA Catholic Values Index transitioned to the methodology described in the methodology book, following enhancements to the MSCI ESG Controversies (earlier known as MSCI Impact Monitor). The details of the changes are as given below.

The changes to MSCI ESG Controversies included adjusting the scoring model to align the scores with individual controversy case levels, including the introduction of an Orange flag, and the removal of specific controversial business involvement (CBI) criteria from the model to refocus the ESG Controversies scores on event-driven controversies.

MSCI implemented the following changes to the MSCI USA Catholic Values Index methodology effective June 1, 2016 to maintain consistency with the existing index construction objectives:

1 - As per the old MSCI ESG Impact Monitor methodology, securities which had an Impact Monitor score of 0 and 1 had a Red controversy flag. Under the new methodology, only securities with an ESG controversies score of 0 have a Red controversy flag. For indexes where constituents were ineligible to be included in the index if their Impact Monitor score was 0 or 1 (current Red controversy flag), the exclusion criteria was changed to ESG Controversies score = 0 in order to continue to only exclude securities with Red controversy flag in the MSCI USA Catholic Values Index.

2 – MSCI Impact Monitor earlier incorporated exclusion rules based on controversial business involvement criteria related to alcohol, tobacco, gambling, nuclear power, conventional weapons and controversial weapons. The values based exclusion criteria that were already a part of the MSCI USA Catholic Values Index were more stringent than most of these rules. As a result, only the ‘Nuclear Power’ screen was updated to reflect the additional rules that were earlier incorporated in the MSCI Impact Monitor. The details of the exclusion rules are mentioned in Appendix 1.

The following sections have been modified since May 2012:

2 ESG Research Framework

- Updated

3.1 Selection Universe

- Updated the selection universe

3.2 Eligibility Criteria

- Replaced old section 3.2 titled 'Values Based Exclusion Criteria'

4.1 Quarterly Index Reviews

- Updated sub-sections titled 'Index Additions' and 'Deletion Criteria'

Appendix 1: Value Based Exclusion Criteria

- Updated values based exclusion criteria for 'Military Weapons' and Civilian Firearms' categories
- Deletion of condition to classify companies under 'Adult Entertainment' category

Appendix 3: Transition to the enhanced MSCI USA Catholic Values Index methodology

- Section Deleted

The following sections have been modified since November 2014:

Section 3.2.3: ESG Controversies Score Eligibility

- Updated the MSCI ESG Controversies Score eligibility requirements

Appendix 1: Values Based Exclusion Criteria

- Updated the screening criteria for companies involved in 'Nuclear Power'

Appendix 3: Methodology Transition

- Added details which highlight the changes to the MSCI USA Catholic Values Index effective June 2016

ABOUT MSCI

For more than 40 years, MSCI's research-based indexes and analytics have helped the world's leading investors build and manage better portfolios. Clients rely on our offerings for deeper insights into the drivers of performance and risk in their portfolios, broad asset class coverage and innovative research.

Our line of products and services includes indexes, analytical models, data, real estate benchmarks and ESG research.

MSCI serves 98 of the top 100 largest money managers, according to the most recent P&I ranking.

For more information, visit us at www.msci.com.

NOTICE AND DISCLAIMER

This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the “Information”) is the property of MSCI Inc. or its subsidiaries (collectively, “MSCI”), or MSCI’s licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the “Information Providers”) and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, “Index Linked Investments”). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research Inc. and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.’s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.’s company filings on the Investor Relations section of www.msci.com.

MSCI ESG Research Inc. is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI’s products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD, FEA, InvestorForce, and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and Standard & Poor’s. “Global Industry Classification Standard (GICS)” is a service mark of MSCI and Standard & Poor’s.
